History

A day quite unlike any other, in 1945. The war is drawing to a close, time to roll up our sleeves and set about reconstruction.

They start production on a commercial scale of what was to be able to enjoy them all year round. This is just the first in a long line of product that today are known everywhere as Frutta sotto Spirito. And thus the Toschi story begins. Over its 65 years in the business, the company has enormously en-larged its range of products, but the mission of Toschi Vignola Srl is to offer quality products to the market, at the same time respect-ing tradition and territorial features.

Toschi has obtained the certification of key food industry to provide its customers with products of excellent quality: in 2000 Toschi Vignola received the UNI-EN-ISO 9001:2000 cer-tification and in 2006 it obtained the IFS certification for all its products. The final approval granted in 2012 is BRC certifi-cation, further confirmation of the quality service of the com-pany.

The company, which is now being headed by Giorgio Montorsi and Massimo Toschi, is located in Savignano sul Panaro and has 65 employees.
